## Who We Are...

Occupying 1750 acres of natural wooded splendor, our private recreational community is called "Home" by year round residents, seasonal campers and a variety of wildlife, including deer, fox, and coyote.

We offer a private Clubhouse with an indoor pool and saunas. It includes a game room with a pool table, books, board games, puzzles, television and WIFI. We also have a private tennis basketball court as well as a mini putt golf course.

Centrally located, we are 10 miles northwest of Clare with expressway driving within 3 miles of our entrance. All roads and amenities are owned and well maintained by the Property Owners Association. Property owner's annual assessment is currently set at \$375.00 per year.

## Camping

Members can enjoy camping on their undeveloped residential lot from Memorial weekend until October 31st without a permit. Camping in the off-season can be enjoyed with a 14-day permit.

White Birch Lakes also offers a campground for exclusive use by members and their guests. It features campsites for trailers, popup campers, or tents. Most sites offer electrical hook-up but there are also a limited number of full hookup sites which include water, electric and sewer. The campground also features a dump station with running water.

There's a playground for the kids and up-to-date restrooms with showers.

We have a large pavilion located in the Campground which provides a great location and setting for family reunions or outdoor summer festivities.

## Our Lakes and Commons

White Birch Lakes Recreational Association has three private stocked lakes and a pond, each with its own unique characteristics.

Whether swimming, boating or ice fishing our lakes can be enjoyed year round. They are for use with electric motors only and the lakes are enjoyed by row boats, paddle boats, and kayaks.

Two of our lakes, Timber and Holiday, have beautiful sandy beaches and are perfect for family fun.

Properties start at  $\frac{3}{4}$  of an acre and are all wooded. You may camp or build on them. Please visit our website at [www.whitebirch.org](http://www.whitebirch.org) for a listing of lots for sale. We value the beauty of our wildlife, so there is no hunting in White Birch Lakes.
